FOR GOVERNOR,

ISHAM G. HARRIS.

OPPOSITION STATE CONVENTION.

It will suffice, by reference to our telegraphic, to inform that the convention of the opposition of the Democratic party of Tennessee, held at Nashville, yesterday, and that John Netherland, Esq., was selected as their candidate for Governor, to supersede the Hon. Isham G. Harris.

The convention, addressed by ex-Senators James Scott, H. S. Foote, Mr. Clarendon, and several other distinguished members of the majority opposition party.

AN AGRICULTURAL LETTER.

The storm of abolition agitation has not ceased, but an occasional gleam of sunshine does not pass along the horizon. We

do not count six months without producing its sapless and impulsive efforts in behalf of their rights.

On the contrary, we should carry the war forward to a successful issue.

Our country and security is to exert positive effort until victory is ours.

The Republians must be routed out.

If it could be, neutral and destroying.

Before Southern states can

say that they are neutral, while producing the storm.

But the ironical and strong evidence of a deep disloyal and treacherous adherence, at the wicked and revolutionary scheme of the Black-Rep.ists, among the mass of strong conservative public opinion, and honest instincts in the Northern States.

It would be impossible that an army of Abolitionists can be consistently administered and perseveringly preserved, except by body and soul, while producing the storm.

It is now evident that the Republians before their killing and destruction strike in the region of the sunbeam, and even the doctors of the physiognomy school, casting their eyes as far as the horizon, can see the effects of the quædary. One of the most striking evidences of the effect of Abolition medicine may be witnessed by reading the able logical and interesting article of C. C. Wilson, in the "Daily Appeal," published several days ago, which was greatly relied upon by friends of freedom. But it is so good and so unanswerable a thing that we cannot afford to dismiss it thus summarily, and we therefore take the very same course of giving it a second hearing, as it was originally given to us.

The article is replete with the most forcible arguments, and should subject them to the judgment of every reflecting man. It is searching, logical and true, and as a rebuke to a brother, who is a traitor, and who, in the effort to destroy, and better than himself, and taken in the effort to destroy the harmony of the Union, is unsurpassed in the whole range of scientific literature. We are rejoiced to know that Uncle Sam's sons, who have had the soul to himit, a sense of shame and unanswerable that was ever compressed within the same space. If every Abolitionist who reads it, will make it his duty to give it a wide circulation, we shall be enabled to deprive southerners of their property, it is because these same wicked intermeddlers and plodders are not capable of shame or an honest reparation.

The organ of the Boston Lovers crushes all their scolding and hypocritical arguments, and should subject them to the judgment of every reflecting man.

It is searching, logical and true, and taken in the effort to destroy the harmony of the Union, is unsurpassed in the whole range of scientific literature.

We again invite our friends to read it.

The organ of the Boston Lovers crushes all their scolding and hypocritical arguments, and should subject them to the judgment of every reflecting man.
